This electricity installation will take a period of +- 3 months therefore there might be light disturbance but if ever that occurred people will be informed.

Cllr further confirmed that if there is no electricity in the area people should call the free line to call the department and they will be given the Ref number and if they take longer than expected to come and fix the matter people must then consult the Cllr, people have been complaining that their electricity is not fixed on time but the reality is that people do not phone.
