Dear Kate

All of the Lubowski documentation was handed to Wilson Magadla. In an attempt to salvage the situation Cees Kooijmans has started preparing an urgent index of all such documentation. He will thus be collecting and collating the same. I intend having an urgent meeting with Wilson and any other investigator concerned to assess the situation and consider ways of streamlining and expediting the matter.

Needless to say there is extreme pressure for some progress in this matter. I suggest that you hold the matter in abeyance and advise Cees urgently of all the relevant documentation in your possession.
