MRS. MICKY SCHLAGTER MRS. CANDICE RAFFIE

Dear Mesdames,

UJ 01/2012 (EOI) - CLEANING SERVICES

The abovementioned tender has reference.

We have sent an email to your department requesting that our new B-BBEE certificate be used for the adjudication of the cleaning service tender - attached herewith email dated 14th September 2012.

As mentioned in other emails (see emails dated 13th and 8th September 2012 attached) we did not receive the RFI email dated 8th September 2012. This was possibly an internet "glitch". We received the email on 13th September 2012 following enquiry. This was the reason that we did not have enough time to prepare our B-BBEE audit for the tender.

We will make ourselves available should you wish to discuss this matter in person or telephonically. Alternatively, kindly confirm that our level 1 B-BBEE certificate will be used for the adjudication process.

We await your response.

Yours faithfully, ELITE CLEANING SERVICES (PTY) LTD.

- 6.4.3 In the case of any strike, stay away or action where no or only a partial service is rendered, the remuneration for the period concerned shall be adjusted accordingly by UJ, without absolving the Contractor from any of its obligations in terms hereof and without prejudice to any right which UJ may have in terms of this Agreement;
- 6.4.4 In the event of action as detailed above, it is the responsibility of the Contractor to calculate revised invoices and present them for payment at the end of the month. UJ reserves the right to adjust such invoices if not calculated correctly.

7. INDEMNITY

- 7.1 Despite any provision of this Agreement to the contrary, the Contractor hereby indemnifies and hold UJ harmless against all claims, liability, damage, loss, penalty, expense and costs (including legal costs on attorney and client scale) of any nature whatsoever which UJ may sustain as a result of or attributable:
- 7.1.1 Any act, default, negligence of the Contractor, its employees, subcontractor or agents in relation to the obligations of the Contractor in terms of this Agreement; or
- 7.2 UJ shall be deemed to have suffered a loss equivalent to the amount of any damages suffered by UJ in respect of the liabilities or claims against it is indemnified in terms of 7.1.
- 7.3 In the event of UJ claiming indemnification rights hereunder, UJ shall notify the Contractor of any claim which may be made against UJ in respect of any of the matters referred to in 7.1 within a reasonable period

of UJ becoming aware thereof, to enable the Contractor to take steps to contest such claim.

- 7.4 The Contractor shall be entitled to contest the claim concerned in the name of UJ, although UJ shall at all times be entitled to control the proceedings in regard thereto, provided that-
- 7.4.1 Where necessary, UJ renders reasonable assistance to the Contractor at the expense of the Contractor in regard to any action instituted by the Contractor pursuant to this sub-clause 7.4;
- 7.4.2 The Contractor delivers to UJ a written indemnity on terms reasonably acceptable to UJ, indemnifying UJ against all charges and all reasonable legal costs (not limited to any scale) which may be incurred or awarded as a consequence of such steps being taken by UJ. UJ will be entitled to require the Contractor to give reasonable security against such costs.
- 7.5 In the event of UJ suffering or paying any loss, damage, liability, cost, charge, expense, payment or penalty to which the warranties and indemnities relate, the Contractor will forthwith upon such proven amount being notified by UJ, pay to UJ an amount equal to such loss, damage, liability, cost, charge, expense, payment or penalty. Any amount payable by the Contractor pursuant to the provisions of this clause shall bear interest at the Prime Rate, which interest shall be payable simultaneously with the amount payable by the Contractor. For purposes hereof "Prime Rate" means the publicly quoted minimum rate of interest from time to time levied by First Rand Bank Limited on unsecured overdrawn current accounts of its most favoured private sector corporate customers, as certified by any manager of that bank (whose authority and/or appointment and/or qualification it shall not necessarily have to prove).
- 7.6 For purposes hereof, UJ shall include its employees, agents, subcontractors, students and/or visitors.

8. MEETINGS

- 8.1 Apart from the normal monthly liaison meetings between the Parties, and the meetings with contract managers which may be held as and when required, UJ and the Contractor shall convene meetings at such time and place as either of them may from time to time reasonably require in order to discuss the administration and implementation of the provisions of this Agreement.
 - 8.2 The chairperson of each such meeting shall be the Authorised UJ Representative, or his nominee, and he shall be entitled to invite such stakeholders as he may deem fit. A quorum shall be 1 (one) representative from both UJ and the Contractor.
 - 8.3 At such meetings, the Contractor shall submit such reports and/or information concerning the performance of its obligations under this Agreement as may be reasonably required of it.
 - 8.4 The Parties agree that, unless otherwise decided, they shall hold such meeting on a once a month basis and the representatives of the Parties

attending such meeting may then agree where and when the next meeting shall be held, which shall constitute valid notice of such next meeting. Whenever it shall be necessary to meet other than as provided for in this clause, UJ shall give the Contractor 24 (twenty four) hours' notice (which may be waived by mutual agreement) of any such meeting, unless "time is of the essence" regarding the Cleaning Services to be rendered at the time.

8.5 Proceedings of such meetings and decisions taken at such meeting shall be recorded in minutes taken by the chairman (or his nominee) and confirmed and/or noted (as the case may be) at the next meeting. Matters so recorded shall be intended to supplement and regulate the practical implementation of this Agreement and shall be binding and enforceable, but should such matters conflict with the material provisions of this Agreement, the provisions of this Agreement shall prevail.

8.6 The Parties shall use their best endeavours to resolve by negotiations any disputes which may arise at such meetings. In the event that such disputed matters cannot be resolved and where this Agreement does not specifically provide for the method of resolution of such dispute at the meeting, then a decision shall be made on a "balance of convenience" principal and such decision shall be binding on the meeting for the time being. The chairman shall, however, immediately refer such matter for resolution as provided for.

8.7 Where the Parties cannot reach agreement on any matter, they shall, as soon as reasonably possible, jointly appoint and share the costs of a suitably qualified independent person (who shall act as expert and not as an arbitrator) to decide such matter, provided that such decision shall not be binding on the Parties. Where agreement cannot be reached on the appointment of such expert, then either Party may demand that the President (or a mutually agreed upon person) appoints such expert within 5 (five) business days of such demand.

- 8.7.1 During such period of dispute or disagreement, the Parties shall carry the costs of equipment that needs to be replaced or repaired in equal shares, until such time that such dispute has been settled. The unsuccessful Party shall refund the successful Party within 10 (ten) days from date of Resolution in terms of this Agreement.
- 8.8 Where the Parties accept the decision of such expert as referred to, such decision shall be minuted at the next meeting and each Party undertakes to comply with such provision.
- 8.9 When either UJ or the Contractor disputes the decision of such expert so appointed as provided for in the preceding sub-clause, then such matter, provided same is material, shall be referred to mediation and arbitration as provided for in "Dispute Resolution".
- 8.10 The representatives of the Parties may confer by telephone, close circuit television or other electronic means or audio or audio visual communication, and a resolution passed at such a conference shall, notwithstanding that the representatives are not present together in one place at the time of the conference, be deemed to have been passed at a meeting of the representatives as envisaged in this clause, duly called

and constituted. All representatives conferring in such a way shall be deemed for the purposes of determining a quorum to be present in person.

9. REPRESENTATIONS, WARRANTIES AND UNDERTAKINGS

- 9.1 The Contractor represents and warrants that:
- 9.1.1 It is duly incorporated and validly existing under the laws of the RSA and has the corporate power - and has obtained all required authorisations - to own its assets, conduct its business as presently conducted and to enter into, and fulfil its obligations under this Agreement;
- 9.1.2 This Agreement has been duly authorised and executed by it and constitutes its valid and legally binding obligation, enforceable in accordance with its terms;
- 9.1.3 Neither the entering of this Agreement nor the compliance of its terms will conflict with or result in a breach of any of the terms, conditions or provisions of, or constitute a default or require any consent under any agreement or other arrangement to which it is a party or by which it is bound, or violate any of the terms and conditions of its Memorandum and Articles of Association, Founding Statement or any authorisation, judgment, decree, order or any statute, rule or regulation applicable to it;
- 9.1.4 Copies of its Memorandum and Articles of Association and/or Founding Papers, as submitted to UJ have not been amended since the date on which it was so submitted;
- -9.1.5 ---- has acquainted itself with all aspects of the Cleaning Services to be rendered in terms of the agreement;
- 9.1.6 All information contained in or regarding the Tender is true and correct in all respects and further, that it has complied fully in a transparent manner with the UJ tender process:
- 9.1.7 Since its submission of the Tender to UJ it:
- 9.1.7.1 Has not suffered any change that has a potential derogatory effect on its ability to perform its obligations in terms of this Agreement or the Tender; and
- 9.1.7.2 Has not undertaken or agreed to undertake any substantial obligations other than the detail as supplied to UJ with regard to and in respect of its obligations as envisaged in this Agreement;
- 9.1.8 None of the representations and warranties in this clause omits any matter, the omission of which makes any of them misleading.
- 9.2 The Contractor undertakes and hereby accepts the responsibility of ensuring that value for money is received by UJ from it pursuant to this Agreement, that it will not deviate from the detail contained in the Tender

unless otherwise provided for in this Agreement, and further, that it will do everything in its power to render the Cleaning Services to an acceptable and professional level, complying with all the specifications of this Agreement.

9.3 The Contractor acknowledges that it makes the representations, warranties and undertakings in the above sub-clauses with the intention of inducing UJ to enter into this Agreement and that UJ enters into this Agreement in full reliance on each of them.

10. PENALTY

- 10.1 Pursuant to the above undertakings to perform the Cleaning Services to an acceptable level, should the Contractor fail to perform the Cleaning Services to such level, then UJ, without prejudice to any other rights which it may have in terms of this Agreement or at law, shall be entitled to deduct the amount owed for that specific duty, as well as an amount equal to that amount ("the Penalty") as penalty from any amount which UJ may thereafter be due to the Contractor.
- 10.2 The amount of each Penalty shall be discussed and agreed at a Meeting.
- 10.3 Should the Parties be unable to reach agreement on the value as envisaged herein, a quotation from a third party that could rectify the fault, omission or neglect, will be used to determine such value.
- 10.4 In all cases of non-compliance with specifications included in the Tender and the Tender Specification Document other than those mentioned elsewhere, the Contractor agrees to a penalty of R250,00 (Two Hundred and fifty Rand) per obvious fault, omission, negligence or failure to comply with such specifications, and hereby irrevocably empowers and authorises UJ to deduct such amount from any amount which UJ may thereafter owe the Contractor, without prejudice to any right which UJ may have in terms of this Agreement.

11. SUB-CONTRACTORS

- 11.1 The Contractor shall, with the prior written consent of UJ, which consent shall not be unreasonably withheld, but which may be granted conditionally, be entitled to appoint sub-contractors as and when the Contractor deems it necessary for the performance or part-performance of any of its obligations in terms of this Agreement, provided that -
- 11.1.1 The Contractor shall not, by virtue of any such appointment, be entitled to claim from UJ any amount not specifically provided for in this Agreement;
- 11.1.2 No such appointment shall in any way whatsoever absolve the Contractor from any of its obligations in terms of this Agreement;
- 11.1.3 Any such appointment shall require that such sub-contractor carry out the obligations of the Contractor in this Agreement with the same due care and diligence for the interest of UJ as is required of the Contractor.

11.2 Notwithstanding the provisions of the preceding sub-clauses, UJ may at any time, upon reasonable grounds and upon notice to the Contractor, withdraw any consent given for the appointment of any sub-contractor for the remaining currency of this Agreement.

12. CHANGED CIRCUMSTANCES

UJ's requirements regarding the cleaning of areas indicated in the separate areas may change during the course of this Agreement, in which event such changed requirements will be addressed by the Parties, even if it means that some members of the Cleaning Team may be retrenched.

- 12.1 Notwithstanding anything contained in this Agreement to the contrary, if any change in or introduction of any law and/or policy and/or guideline and/or due to growth or increase or decrease usage of any specific area or any other similar event as a result of which UJ is obliged to comply and/or which is in accordance with the practise of a responsible supplier of tertiary education, or any interpretation or administration thereof, results that UJ may find it necessary, in its sole and absolute discretion, to increase, reduce and/or terminate the Cleaning Services, UJ reserves the right to make amendments to the Cleaning Services required, and such amendments to this Agreement and the required Cleaning Services will be renegotiated in a fair and transparent manner.
- 12.2 Pursuant to the above, the then existing profit of the Contractor, the then existing expense of UJ and the then prevailing market price of services similar to the then required cleaning services, will be taken into account in order to negotiate intended amended requirements and expenses of UJ in respect of the Cleaning Services.
- 12.3 For the avoidance of any doubt, it is specifically recorded that:
- 12.3.1 UJ shall not be compelled to utilise all members of the Cleaning Team as at the Effective Date or for the full duration of this Agreement
- 12.3.2 UJ's requirements for the various clusters regarding the cleaning may change during the course of this Agreement, in which event such changed requirements will be addressed by the Parties, even if it means that some members of the Cleaning Team may be retrenched.

13. GENERAL RIGHTS AND OBLIGATIONS OF UJ

- 13.1 Against rendering of the Cleaning Services as envisaged in this Agreement, UJ shall pay to the Contractor the amounts on a monthly basis as detailed in the Tender and amplified in the pricing schedule,
- 13.2 Payment shall only be made on receipt by UJ of a VAT Invoice and statement.
- 13.3 UJ shall request its staff from time to time to ensure that items of value, cash, documents and personal items are securely locked away during cleaning periods.

14. <u>GENERAL</u>

- 14.1 This document read with the Tender duly signed by UJ as well as any documentation submitted in terms of the Tender, constitutes the sole record of the agreement between the Parties in regard to the subject matter thereof. Any provision in the Tender which is contrary to a provision in this Agreement, shall be regarded as *pro non scripto* and the provision herein shall prevail.
- 14.2 No Party shall be bound by any express or implied term, representation, warranty, promise or the like, not recorded herein.
- 14.3 No addition to, variation or consensual cancellation of this Agreement and no extension of time, waiver or relaxation or suspension of any of the provisions or terms of this Agreement shall be of any force or effect unless in writing and signed by or on behalf of all the Parties.
- 14.4 No latitude, extension of time or other indulgence which may be given or allowed by UJ to the Contractor in respect of the performance of any obligation hereunder or enforcement of any right arising from this Agreement and no single or partial exercise of any right by UJ shall under any circumstances be construed to be an implied consent by UJ or operate as a waiver or a novation of, or otherwise affect any of UJ's rights in terms of or arising from this Agreement or stop UJ from enforcing, at any time and without notice, strict and punctual compliance with each and every provision or term hereof.
- 14.5 The Parties undertake at all times to do all such things, to perform all such acts and to take all such steps and to procure the doing of all such things, the performance of all such actions and the taking of all such steps as may be open to them and necessary for or incidental to the putting into effect or maintenance of the terms, conditions and import of this Agreement.14Save as is specifically provided in this Agreement, the Contractor shall not be entitled to cede or delegate its rights and/or obligations in terms of this Agreement to any party without the prior written consent of UJ.

15. <u>COSTS</u>

All legal costs incurred by either Party in consequence of any default of the provisions of this Agreement by the other Party shall be payable by the defaulting Party on demand on the scale as between attorney and client and shall include collection charges, the costs incurred by the nondefaulting Party in endeavouring to enforce such rights prior to the institution of legal proceedings and the costs incurred in connection with the satisfaction or enforcement of any judgement awarded in favour of the non-defaulting Party in relation to its rights in terms of or arising out of this Agreement.

Appendix "C"

SPECIAL NOTES

- 1) It often becomes an issue between the separate contractors on site as to who is responsible for a certain area. In this regard, refer to areas where outside labs are for instance connected to the main building by a walkway or parking areas are connected to the building with paving blocks. In such cases, the U.J. specifically prefers to have an "overlapping" scenario as opposed to an argument between separate contractors as to who accepts responsibility for the area in question. Provision must therefore be made to accommodate this shortcoming. In any event, U.J's decision in the case of such a dispute between two contractors will be final.
- 2) Specific provision must be made for all cleaners (including supervisory staff) to work a full 46-hour week. Mondays to Fridays, cleaners have to work a 9 hour day with a one hour lunch break and Saturdays 7 hours with a similar break. On Sundays the service has to be rendered with a reduced staff compliment from 08h00 until 17h00. Note must be taken that it is not only a service that the Contractor will be selling but actual labour as well. The attendance register of the contractor must be kept on site and be available for audit purposes at all times. All short time found will be claimed by U.J. on a basis acceptable to our management. Absentees will be replaced on the day following the absenteeism or deductions on invoiced amounts.
- 3) Provision must be made to have permanent full time staff servicing the various ablution facilities on an on-going rotational basis. At present most facilities are serviced up to 12 times daily, to ensure that bathrooms are neat, tidy and hygienic at all times. Note must be taken that a day shift staff compliment is used, together with a middle shift, as well as a night shift. The U.J. will insist that this practice be continued. Where the general specifications state that

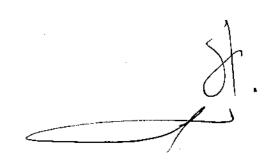

toilets and cloakrooms are serviced daily, it is not implied that only one service per facility per day has to be rendered.

- 4) Very explicit minimum requirements, guidelines and instructions in relation to staff compliments, machinery required to service the individual contracts and other general requirements i.e. hours to be worked, overlaps, service periods etc. will be issued. Contractors are to ensure that they comply herewith at all times.
- Certain checks and balances are built into the administration of these contracts.
 It will be required that the successful tenderer must complete certain documentation on request and submit as and when required.
- 6) A standard cleaning contract costing form is attached to the tender documentation for completion. (Schedules "C") will be used as the only "tender to contract" price document and must be completed in full. Failure to comply will lead to automatic disqualification. No "additional" annexures or schedules, escalating a "reduced" price with the intent to mislead, will be accommodated. The price quoted on Schedules C must be your full and final price for which you will render the full standard services as defined in the scope of this contract.
- 7) A full-time contract manager must be appointed to each of these contracts, to liaise with the U.J. management. This contract manager must also attend the weekly cleaning meetings held on Wednesdays or such other day as UJ may advise.
- Twice monthly, a senior member of the Contractor also has to attend these meetings.
- 9) Note must be taken of the fact that all glass (windows, entrance doors- and facades, partitioning glass etc.) have to be washed twice per annum. This is done by bringing in a special dedicated team of cleaners, for a two (2) month period at a time, twice per year. (June/July and mid-November/ part December, up to mid-January.) Both inside and outside faces of each piece of glass on all the campuses and at the outside sport areas and school, have to be washed during these periods.
- 10) Provision must be made in the costing structures to allow for two (2) major "spring cleaning" exercises annually. (June/July and November/December)

During these "spring cleaning" periods, all hard floor surfaces must be stripped down and re sealed with at least three (3) coats of high solid-content polymer sealant. During the rest of the year, provision must be made for on-going maintenance of floor surfaces. Should floor surfaces not appear acceptable during these periods, the U.J. may, at their discretion, instruct the Contractor to strip and re seal specific floors or sections thereof at no additional cost or expense to UJ. Carpeted floors, are included in this exercise and provision must be made for the twice annual wet extraction cleaning of all carpeted areas. Cleaning of accessible windows must also be provided for, for a bi-annual wash.

- 11) Specific note must be taken of the quarry tiles on outside verandas and walkways. These are areas that would normally not be sealed. The U.J. expects these areas to be thoroughly cleaned, to be totally dust free and then to be rinsed with water containing a polymer sealant, to give it a rich, maintained appearance.
- 12) The Contractor is to make provision for new machinery on all U.J. contracts. The Contractor will be expected to have the minimum disruption of services, caused by breakdowns and therefore second-hand cleaning equipment is unacceptable.
- 13) With the start-up of this contract, all equipment and machinery must be new. Thereafter, machinery must be maintained in a fully working condition, maintaining the numbers as specified in schedule B.
- 14) The U.J. reserves the right to approve the appointment of supervisory staff deployed at the U.J and to consider the suitability of these staff members on an on-going basis.
- 15) Special requests are received from U.J. staff. It is required that all requests be attended to on the same day they are received. Should this be impossible for whatever reason, feedback to the relevant parties will be expected.

No additional ad-hoc work may be undertaken without an official purchase order being issued by UJ Procurement.

Relating to the Kingsway Campus, the following 'building specifics' will apply. Please note that some or all of these may be relevant to other 'clusters' or areas:

The Contractor must make provision for the following areas which are considered to be 'grey areas':

- Paved areas around the entrances to the building. Areas to be swept, washed and polished on a frequent basis, to appear neat, tidy and well cared for at all times. This area is referred to as the "veranda"
- Weeds growing between paving blocks near entrances and on rooftops must be removed when necessary
- Green algae growth on paving at some of the entrance doors must be treated as required.
- All entrance doors and window facades at all entrances to the building have to be washed and maintained frequently, to appear acceptable on a daily basis.
- Areas where special events take place are to receive intensive attention whenever required. This could entail that a special team of staff or additional chemicals or more intense supervision would be required whenever the need presents itself. In this regard, examples include but are not limited to the foyer area to be polished prior to graduation ceremonies, or that all areas receive specialized attention when the U.J. management team receive the first year students and their parents.

Additional requirements

- All vinyl floors throughout the buildings are required to be free of scuffmarks.
- Some floors will require more frequent treatment than others but in general all vinyl floors must be burnished on a continuous basis.

- Stripping and sealing of floors must take place twice a year, but provision must be made to strip and reseal floors additionally, should it be required.
- A lot of duplication of work will take place when night-shift cleaning staff take over from day-shift cleaning staff. It is however important that the ground floor passage, all lifts, all toilet areas on all floors and all lecture halls are fully serviced, clean and ready for use, prior to the night shift staff departing from duty.
- In the event of power failures during night times or absence of light in lecture halls, the night supervisor is to liaise with the senior Protection Services staff member on duty, for remedial actions by the U.J.
- Obvious breakages, defects, acts of vandalism or other damages noticed by the Contractor's employees must be reported to the Protection Services offices on a daily basis by the Contractor's supervisory staff.
- No pamphlets, notices or any other defacing materials or documentation are allowed to be displayed on any wall inside the main building, inside lifts or on glass entrance doors. All such materials must be removed on a daily basis before 08:00.
- In the event of water leaks in the main building, sufficient staff must be allocated to this contract to allow the Contractor to be in a position to attend to emergency eventualities without disrupting other general services.
- A full-time contract manager and the specified full time supervisory staff must be allocated to this contract.
 - It is required that cleaners and supervisory staff work a 46-hour week, rendering a service from Mondays to Saturdays. Hours of work on weekdays must cover the period from 06:45 to 15:45 with a one (1) hour break (lunch 12:00 – 13:00) and staff must be at their workstations by 07:00 every morning. The afternoon shift works from 13:00 to 22:00. Night-shift staff must perform their duties from 20:00 until 05:00.
 - On Saturdays, day staff is to work from 07:00 until 16:00 (staggered shifts). The afternoon and night staff work from 12:00 until 19:00, with both shifts having a one-hour lunch break. No sleeping on the premises is allowed at any time.

- On Sundays, a reduced staff compliment has to perform duties from 08h00 until 17h00, to prepare the building for the following Monday.
- Lecture halls Furnishings and fittings are to be cleaned and serviced as stipulated in the standard specifications. In addition, all display boards (black boards) must be washed with clean water. Chalk, that will be supplied to the contractor, must be placed in all lectures rooms and board erasers dusted out.
- Should certain lecture halls be prepared for service for a following day i.e. notes written on black boards etc., notice will be given to the contractor, not to clean the specific area if so required. Normally, servicing of lecture halls commences at 22:00.
- The contractor is to keep a communication register for written instructions, notices and general communication with their night shift staff.

The Contractor shall be liable for any losses which occur during the cleaning process when it can be established on a balance of probabilities that the Contractor was responsible for such loss.

KINDLY TAKE NOTE:

That the exact minimum staff compliments, machinery required, hours of work etc.

have all been specified and must be reflected in your costing forms.

NON-COMPLIANCE WILL LEAD TO DISQUALIFICATION .

Staff compliments and machinery are listed on schedules A and B inclusive of the hours of work.

ADDITIONAL INFORMATION

The academic premises of the University of Johannesburg are under severe pressure with the over-crowding of facilities and this places additional stress on all service providers.

To enable Contractors to better understand ablution maintenance specifically, an example (schedules E) has been drawn up to indicate how the facilities must be maintained in our main campus building (APK Ring Building). Similar programs or working procedures also apply across campuses and/or in other specific areas.

Please note that Schedules "C" must comply with all specifications in the standard document. Any deviation must be completed by attaching an annexure or addendum. Should alternative options be submitted (not required) such suggestions should be contained in an annexure or addendum but the costing sheet must be considered as your ONLY tender to contract price for the specifications as contained herein.

The final price as submitted at the bottom of the costing sheet will be your all inclusive price for the full scope of work as contained in this tender and provide for everything as specified.

Ad-hoc Services

- 6.3 The Contractor shall be entitled to tender for specific cleaning work on a particular UJ Campus not covered by the Tender, without limiting the right of UJ to obtain quotations from other persons in which event the Contractor shall follow the following guidelines and/or procedures in respect of the Ad-hoc Service:
- 6.3.1 Prior to the commencement of any work in respect of Ad-hoc Services, the Contractor shall present a quotation in respect thereof to the Authorised Representative;
- 6.3.2 Such quotation shall be detailed to the extent required by the Authorised Representative;

- 6.3.3 Once approved in writing by the Authorised Representative and once an official UJ order number has been allocated, the Contractor shall be entitled to commence to render such Ad-hoc Services detailed on such approved quotation in accordance with the terms and conditions on this Agreement, and the Parties agree that the terms and conditions of this Agreement will be applicable in respect thereof;
- 6.3.4 Any invoices in respect thereof shall, together with the relevant Purchase order number, be submitted within 30 (thirty) days from date of completion of the service and once same has been duly signed off by the Authorised Representative;
- 6.3.5 Unless there is an apparent or obvious error in a written order, the Contractor shall proceed to act on such written order until such order is amended or countermanded, in order to ensure that neither the execution of the Cleaning Service nor the supply of material or labour is delayed by any difference, discrepancy or dispute regarding such order. The Contractors shall however immediately communicate such error to the Authorised Representative in order to arrange for a corrected order;
- 6.3.6 No objection to the description or terms of a written order will be entertained by UJ unless the Contractor lodges such written objection with the Authorised Representative within 21 (twenty one) days of the date of such written order.
- 6.4 <u>Without_derogating_from_the_above,_the_Contractor_shall_take_the_following</u> action should the Contractor's employees participate in strikes, marches, riots or any other actions which fall outside their cleaning duties:
 - 6.4.1 Take all lawful steps to discourage it's employees from participating in such actions, whether these were initiated by staff or students of UJ, or by any other outside body and further, will ensure that such actions at no time place staff, students or property of UJ in danger or interfere unreasonably with the functioning of UJ;
 - 6.4.2 Control its employees, restore order or if necessary, to remove its employees from the UJ's premises;
 - 6.4.3 In the case of any strike, stay away or action where no or only a partial service is rendered, the remuneration for the period concerned shall be adjusted accordingly by UJ, without absolving the Contractor from any of its obligations in terms hereof and without prejudice to any right which UJ may have in terms of this Agreement;

6.4.4 In the event of action as detailed above, it is the responsibility of the Contractor to calculate revised invoices and present them for payment at the end of the month. UJ reserves the right to adjust such invoices if not calculated correctly.

7. INDEMNITY

- 7.1 Despite any provision of this Agreement to the contrary, the Contractor hereby indemnifies and hold UJ harmless against all claims, liability, damage, loss, penalty, expense and costs (including legal costs on attorney and client scale) of any nature whatsoever which UJ may sustain as a result of or attributable:
- 7.1.1 Any act, default, negligence of the Contractor, its employees, sub-contractor or agents in relation to the obligations of the Contractor in terms of this Agreement; or
- 7.2 UJ shall be deemed to have suffered a loss equivalent to the amount of any damages suffered by UJ in respect of the liabilities or claims against it is indemnified in terms of 7.1.
- 7.3 In the event of UJ claiming indemnification rights hereunder, UJ shall notify the Contractor of any claim which may be made against UJ in respect of any of the matters referred to in 7.1 within a reasonable period of UJ becoming aware thereof, to enable the Contractor to take steps to contest such claim.
- 7.4 The Contractor shall be entitled to contest the claim concerned on behalf of UJ,
 although_UJ_shall_at_all_times be entitled_to_control_the_proceedings in regard thereto, provided that-
- 7.4.1 Where necessary, UJ renders reasonable assistance to the Contractor at the expense of the Contractor in regard to any action instituted by the Contractor pursuant to this sub-clause 7.4;
- 7.4.2 The Contractor delivers to UJ a written indemnity on terms reasonably acceptable to UJ, indemnifying UJ against all charges and all reasonable legal costs (not limited to any scale) which may be incurred or awarded as a consequence of such steps being taken by UJ. UJ will be entitled to require the Contractor to give reasonable security against such costs.
- 7.5 In the event of UJ suffering or paying any loss, damage, liability, cost, charge, expense, payment or penalty to which the warranties and indemnities relate, the Contractor will forthwith upon such proven amount being notified by UJ, pay to UJ an amount equal to such loss, damage, liability, cost, charge, expense, payment or penalty. Any amount payable by the Contractor pursuant to the provisions of this clause shall bear interest at the Prime Rate, which interest shall be payable simultaneously with the amount payable by the Contractor. For

purposes hereof "Prime Rate" means the publicly quoted minimum rate of interest from time to time levied by First Rand Bank Limited on unsecured overdrawn current accounts of its most favoured private sector corporate customers, as certified by any manager of that bank (whose authority and/or appointment and/or qualification it shall not necessarily have to prove).

7.6 For purposes hereof, UJ shall include its employees, agents, sub-contractors, students and/or visitors.

8. MEETINGS

- 8.1 Apart from the normal monthly liaison meetings between the Parties, and the meetings with contract managers which may be held as and when required, UJ and the Contractor shall convene meetings at such time and place as either of them may from time to time reasonably require in order to discuss the administration and implementation of the provisions of this Agreement.
- 8.2 The chairperson of each such meeting shall be the Authorised UJ Representative, or his nominee, and he shall be entitled to invite such stakeholders as he may deem fit. A quorum shall be 1 (one) representative from both UJ and the Contractor.
- 8.3 At such meetings, the Contractor shall submit such reports and/or information concerning the performance of its obligations under this Agreement as may be reasonably required of it.
- 8.4 The Parties agree that, unless otherwise decided, they shall hold such meeting on a once a month basis and the representatives of the Parties attending such meeting may then agree where and when the next meeting shall be held, which shall constitute valid notice of such next meeting. Whenever it shall be necessary to meet other than as provided for in this clause, UJ shall give the Contractor 24 (twenty four) hours' notice (which may be waived by mutual agreement) of any such meeting, unless "time is of the essence" regarding the Cleaning Services to be rendered at the time.
- 8.5 Proceedings of such meetings and decisions taken at such meeting shall be recorded in minutes taken by the chairman (or his nominee) and confirmed and/or noted (as the case may be) at the next meeting. Matters so recorded shall be intended to supplement and regulate the practical implementation of this Agreement and shall be binding and enforceable, but should such matters conflict with the material provisions of this Agreement, the provisions of this Agreement shall prevail.

- 8.6 The Parties shall use their best endeavours to resolve by negotiations any disputes which may arise at such meetings. In the event that such disputed matters cannot be resolved and where this Agreement does not specifically provide for the method of resolution of such dispute at the meeting, then a decision shall be made on a "balance of convenience" principal and such decision shall be binding on the meeting for the time being. The chairman shall, however, immediately refer such matter for resolution as provided for.
- 8.7 Where the Parties cannot reach agreement on any matter, they shall, as soon as reasonably possible, jointly appoint and share the costs of a suitably qualified independent person (who shall act as expert and not as an arbitrator) to decide such matter, provided that such decision shall not be binding on the Parties. Where agreement cannot be reached on the appointment of such expert, then either Party may demand that the President (or a mutually agreed upon person) appoints such expert within 5 (five) business days of such demand.
- 8.8 Where the Parties accept the decision of such expert as referred to, such decision shall be minuted at the next meeting and each Party undertakes to comply with such provision.
- 8.9 When either UJ or the Contractor disputes the decision of such expert so appointed as provided for in the preceding sub-clause, then such matter,
 ____provided_same_is_material,_shall_be_referred_to_mediation_and_arbitration_as provided for in "Dispute Resolution".
- 8.10 The representatives of the Parties may confer by telephone, close circuit television or other electronic means or audio or audio visual communication, and a resolution passed at such a conference shall, notwithstanding that the representatives are not present together in one place at the time of the conference, be deemed to have been passed at a meeting of the representatives as envisaged in this clause, duly called and constituted. All representatives conferring in such a way shall be deemed for the purposes of determining a quorum to be present in person.

- 9.3 The Contractor acknowledges that it makes the representations, warranties and undertakings in the above sub-clauses with the intention of inducing UJ to enter into this Agreement and that UJ enters into this Agreement in full reliance on each of them.

- 10.2 The amount of each Penalty shall be discussed and agreed at a Meeting.
- 10.3 Should the Parties be unable to reach agreement on the value as envisaged herein, a quotation from a third party that could rectify the fault, omission or neglect, will be used to determine such value.
- 10.4 In all cases of non-compliance with specifications included in the Tender and the Tender Specification Document other than those mentioned elsewhere, the Contractor agrees to a penalty of R250,00 (Two Hundred and fifty Rand) per obvious fault, omission, negligence or failure to comply with such specifications, and hereby irrevocably empowers and authorises UJ to deduct such amount from any amount which UJ may thereafter owe the Contractor, without prejudice to any right which UJ may have in terms of this Agreement.

The Contractor shall at all times remain responsible for any payments to any subcontractor. No sub-contractor shall be able to claim any monies directly from UJ;
- 11.1.2 No such appointment shall in any way whatsoever absolve the Contractor from any of its obligations in terms of this Agreement;
- 11.1.3 Any such appointment shall require that such sub-contractor carry out the obligations of the Contractor in this Agreement with the same due care and diligence for the interest of UJ as is required of the Contractor.

Appendix "C"

SPECIAL NOTES

- 1) It often becomes an issue between the separate contractors on site as to who is responsible for a certain area. In this regard, refer to areas where outside labs are for instance connected to the main building by a walkway or parking areas are connected to the building with paving blocks. In such cases, the U.J. specifically prefers to have an "overlapping" scenario as opposed to an argument between separate contractors as to who accepts responsibility for the area in question. Provision must therefore be made to accommodate this shortcoming. In any event, U.J's decision in the case of such a dispute between two contractors will be final.
- 2) Specific provision must be made for all cleaners (including supervisory staff) to work a full 46-hour week. Mondays to Fridays, cleaners have to work a 9 hour day with a one hour lunch break and Saturdays 7 hours with a similar break. On Sundays the service has to be rendered with a reduced staff compliment from 08h00 until 17h00. Note must be taken that it is not only a service that the Contractor will be selling but actual labour as well. The attendance register of the contractor must be kept on site and be available for audit purposes at all times. All short time found will be claimed by U.J. on a basis acceptable to our management. Absentees will be replaced on the day following the absenteeism or deductions on invoiced amounts.
- 3) Provision must be made to have permanent full time staff servicing the various ablution facilities on an on-going rotational basis. At present most facilities are serviced up to 12 times daily, to ensure that bathrooms are neat, tidy and hygienic at all times. Note must be taken that a day shift staff compliment is used, together with a middle shift, as well as a night shift. The U.J. will insist that this practice be continued. Where the general specifications state that toilets and cloakrooms are serviced daily, it is not implied that only one service per facility per day has to be rendered.
- Very explicit minimum requirements, guidelines and instructions in relation to staff compliments, machinery required to service the individual contracts and other general requirements i.e. hours to be worked, overlaps, service periods etc., have been issued. Contractors are to ensure that they comply herewith at all times.

- Certain checks and balances are built into the administration of these contracts.
 It will be required that the service providers must complete certain documentation on request and submit as and when required.
- 6) A standard cleaning contract costing form is attached to the tender documentation for completion. (Schedules "C") will be used as the only "tender to contract" price document and must be completed in full. Failure to submit this required documentation, could lead to automatic disqualification of a prospective service supplier. No "additional" annexures or schedules, escalating a "reduced" price with the intent to mislead, will be accommodated. The price quoted on Schedules C must be your full and final price for which you will render the full standard services as defined in the scope of this contract.
- 7) A full-time contract manager must be appointed to each of these contracts, to liaise with the U.J. management. This contract manager must also attend the weekly cleaning meetings held on Wednesdays or such other day as UJ may advise.
- Twice monthly, a senior member of the Contractor also has to attend these meetings.
- 9) Note must be taken of the fact that all glass (windows, entrance doors- and facades, partitioning glass_etc.) has to be washed twice per annum. This is done by bringing in a special dedicated team of cleaners, for a two (2) month period at a time, twice per year. (June/July and mid-November/ part December, up to mid-January.) Both inside and outside faces of each piece of glass on all the campuses and at the outside sport areas and school, have to be washed during these periods.
- 10) Provision must be made, to allow for two (2) major "spring cleaning" exercises annually. (June/July and November/December) During these "spring cleaning" periods, all hard floor surfaces must be stripped down and re sealed with at least three (3) coats of high solid-content polymer sealant. During the rest of the year, provision must be made for on-going maintenance of floor surfaces. Should floor surfaces not appear acceptable during these periods, the U.J. may, at their discretion, instruct the Contractor to strip and re seal specific floors or sections thereof at no additional cost or expense to UJ. Carpeted floors, are included in this exercise and provision must be made for the twice annual wet

extraction cleaning of all carpeted areas. Cleaning of accessible windows must also be provided for, for a bi-annual wash.

- 11) Specific note must be taken of the quarry tiles on outside verandas and walkways. These are areas that would normally not be sealed. The U.J. expects these areas to be thoroughly cleaned, to be totally dust free and then to be rinsed with water containing a polymer sealant, to give it a rich, maintained appearance.
- 12) The Contractor is to make provision for new machinery on all U.J. contracts. The Contractor will be expected to have the minimum disruption of services, caused by breakdowns and therefore second-hand cleaning equipment is unacceptable.
- 13) With the start-up of this contract, all equipment and machinery must be new. Thereafter, machinery must be maintained in a fully working condition, maintaining the numbers as specified in schedule B.
- 14) The U.J. reserves the right to approve the appointment of supervisory staff deployed at the U.J and to consider the suitability of these staff members on an on-going basis.
- 15) Special requests are received from U.J. staff. It is required that all requests be attended to on the same day they are received. Should this be impossible for whatever reason, feedback to the relevant parties will be expected.

No additional ad-hoc work may be undertaken without an official purchase order being issued by UJ Procurement.

Relating to the Kingsway Campus, the following 'building specifics' will apply.

Please note that some or all of these may be relevant to other 'clusters' or

areas:

The Contractor must make provision for the following areas which are considered to be 'grey areas':

 Paved areas around the entrances to the building. Areas to be swept, washed and polished on a frequent basis, to appear neat, tidy and well cared for at all times. This area is referred to as the "veranda"

- Weeds growing between paving blocks near entrances and on rooftops must be removed when necessary
- Green algae growth on paving at some of the entrance doors must be treated as required.
- All entrance doors and window facades at all entrances to the building have to be washed and maintained frequently, to appear acceptable on a daily basis.
- Windows and glass in the foyer area to be washed whenever a graduation or other major function takes place.
- Areas where special events take place are to receive intensive attention whenever required. This could entail that a special team of staff or additional chemicals or more intense supervision would be required whenever the need presents itself. In this regard, examples include but are not limited to the foyer area to be polished prior to graduation ceremonies, or that all areas receive specialized attention when the U.J. management team receive the first year students and their parents.

Additional requirements

- All vinyl floors throughout the buildings are required to be free of scuffmarks.
- Some floors will require more frequent treatment than others but in general all vinyl floors must be burnished on a continuous basis.
- Stripping and sealing of floors must take place twice a year, but provision must be made to strip and reseal floors additionally, should it be required.
- A lot of duplication of work will take place when night-shift cleaning staff take over from day-shift cleaning staff. It is however important that the ground floor passage, all lifts, all toilet areas on all floors and all lecture halls are fully serviced, clean and ready for use, prior to the night shift staff departing from duty.
- In the event of power failures during night times or absence of light in lecture halls, the night supervisor is to liaise with the senior Protection Services staff member on duty, for remedial actions by the U.J.

- Obvious breakages, defects, acts of vandalism or other damages noticed by the Contractor's employees must be reported to the Protection Services offices on a daily basis by the Contractor's supervisory staff.
- No pamphlets, notices or any other defacing materials or documentation are allowed to be displayed on any wall inside the main building, inside lifts or on glass entrance doors. All such materials must be removed on a daily basis before 08:00.
- In the event of water leaks in the main building, sufficient staff must be allocated to this contract to allow the Contractor to be in a position to attend to emergency eventualities without disrupting other general services.
- A full-time contract manager and the specified full time supervisory staff must be allocated to this contract.
- It is required that cleaners and supervisory staff work a 46-hour week, rendering a service from Mondays to Saturdays. Hours of work on weekdays must cover the period from 06:45 to 15:45 with a one (1) hour break (lunch 12:00 – 13:00) and staff must be at their workstations by 07:00 every morning. The afternoon shift works from 13:00 to 22:00. Night-shift staff must perform their duties from 20:00 until 05:00.
- On Saturdays, day staff is to work from 07:00 until 16:00 (staggered shifts). The afternoon and night staff work from 12:00 until 19:00, with both shifts having a one-hour lunch break. No sleeping on the premises is allowed at any time.
- On Sundays, a reduced staff compliment has to perform duties from 08h00 until 17h00, to prepare the building for the following Monday.
- Lecture halls Furnishings and fittings are to be cleaned and serviced as stipulated in the standard specifications. In addition, all display boards (black boards) must be washed with clean water. Chalk, that will be supplied to the contractor, must be placed in all lectures rooms and board erasers dusted out.
- Should certain lecture halls be prepared for service for a following day i.e. notes written on black boards etc., notice will be given to the contractor, not to clean the specific area if so required. Normally, servicing of lecture halls commences at 22:00.

 The contractor is to keep a communication register for written instructions, notices and general communication with their night shift staff.

The Contractor shall be liable for any losses which occur during the cleaning process when it can be established on a balance of probabilities that the Contractor was responsible for such loss.

KINDLY TAKE NOTE:

That the exact minimum staff compliments, machinery required, hours of work etc. have all been specified and must be reflected in your costing forms.

NON-COMPLIANCE WILL LEAD TO DISQUALIFICATION.

Staff compliments and machinery are listed on schedules A and B inclusive of the hours of work.

ADDITIONAL INFORMATION

The academic premises of the University of Johannesburg are under severe pressure with the over-crowding of facilities and this places additional stress on all service providers.

To enable Contractors to better understand ablution maintenance specifically, an example (schedules E) has been drawn up to indicate how the facilities must be

maintained in our main campus building (APK Ring Building). Similar programs or working procedures also apply across campuses and/or in other specific areas.

Please note that Schedule "C" must be aligned with all specifications in the standard document. Any deviation from the supplied specifications, must be completed by attaching an annexure or addendum. Should alternative options be submitted (not required) such suggestions should be contained in an annexure or addendum- but the costing sheet must be considered as your ONLY tender to contract price for the specifications as contained herein. (Note:- This was only put in, so-that suppliers would not come with weird and wonderful untested proposals of how to do things differently- and thereby cut costs to get the contract, only to then find out that they cannot deliver.)

The final price as submitted at the bottom of the costing sheet will be your all inclusive price for the full scope of work as contained in this tender and provide for everything as specified.

SCHEDULE "E"

Example of Toilet Cleaning Program, as expected in terms of the UJ facilities – specific example applicable to contract 001

Every morning, starting at 06:45

- 1. Start at the walkway on the ground level. Confirm that the night shift staff did indeed fully service the ablution facilities. Ensure that there is sufficient paper towels, toilet paper and pink hand soap in all the relevant holders and that all are in good working order. Open the windows, pick up the paper lying around the paper towel holders and empty the hand paper bin. Flush all toilets and urinals that were possibly not flushed after use and make sure that there are sufficient deo-blocks placed in the urinals.
- 2. Now move through to the 2nd, 3rd, 4th, 5th, 6th and 7th levels and do the same as in the ground level toilet facilities.
- The services as listed under 1 and 2 above must be performed over a period of <u>1 (one) hour, which means that approximately 8,5 minutes must be spent per</u> floor level.
- 4. Around 07:45 there is now a shift to the action of the closing of toilets for service purposes. Due to the high frequency of use on the lower floor levels, it is recommended that this should commence on the 7th floor level.
- 5. After each floor level has been properly cleaned, a quick check-up must be done on all the other remaining floor levels.
- 6. From 07:46 until lunchtime, the walkway on the ground level as well as 3 (three) other floor levels must be serviced on this same basis. From lunchtime until 15:45 the remaining 3 (three) floor levels as well as the walkway on the ground floor shall be serviced similarly.
- 7. This required method of work shall ensure that all toilets on 8 (eight) floor levels are serviced (4 of them before lunch and 4 thereafter). It shall also have the result that the toilets on the ground level walkway, which have the highest use, are thoroughly cleaned twice a day and that each toilet facility shall be checked at least 10 (ten) times daily. (Once first in the morning, once last in the afternoon, and once after each of the 8 levels has been serviced)
- 8. Each day at 15:00 this task must have been fully executed in order to proceed to attend to the final (10th) check-up of all floor levels.

9. From 15:00 until 15:45 the final check-up inspection takes place and the same requirements as listed in 1 and 2 herein, are to be performed. (Only 6.5 minutes per floor level is available for this).

At 15:45 the cleaning personnel withdraw from the floor levels where they work and are dismissed from service for the day. At this point in time, the afternoon shift is already on duty and the floor levels are to be serviced in accordance with the said manner.

- 10. The afternoon shifts are to perform their duties from 13:00 until 22:00 with an eating break from 17:00 to 18:00. During this time period the same services are to be rendered
- 11. The nightshift personnel report for daily duty at 21:00. They will thoroughly clean the toilet facilities for use during the following working day.

ADDITIONAL INFORMATION

The academic premises of the University of Johannesburg are under severe pressure, with the over-crowding of facilities, and this places additional stress on all service providers.

In order for potential service providers to understand better around specifically ablution-maintenance, an example has been drawn-up of how-the-facilities-need to be maintained in our main campus building (APK Ring Building). Similar programs or working procedures could also apply across campuses and/or in other specific areas.

Please note that Schedule "C" page 51 AND 52 must comply with all specifications in the standard document. Any deviations must be completed by attaching an addendum/annexure. Should alternative options be submitted (not required) such suggestions should be contained in an annexure or addendum but the costing sheet (page 51 AND 52) must be considered as your **ONLY** tender to contract price for the specifications as contained herein. The final price as submitted at the bottom of the costing sheet will be your all inclusive price for the full scope of work as contained in this tender and provide for everything as specified.

- 4.—Costs for-maintaining the existing BMU/TSP system and costs of platform hire, training and certification are for the contractors account. These costs currently are R34 900.00 pa and are expected to increase by approx. 10% from January 2013. All testing to be done by an independent certified company.

An additional 230 man days are required to wash both faces of all glass and for the purpose of this tender we are not specifying that specialised access equipment need to be hired in. Once one or two cycles of window washing have been completed, the difficulties experienced around access and equipment will be

re-assessed and the successful service provider will then be afforded the opportunity to submit a quotation for consideration.

- 9. As the above process describes a learning curve for all parties, best practice, cost structures and operating procedures will be negotiated on a fair basis and the final outcome and decisions then reduced to writing.
- 10. In the interim service providers need to provide for the labour component in the costing structure (kindly indicate the two components of this tender individually – and then as a combined total price).

MRS. MICKY SCHLAGTER MRS. CANDICE RAFFIE

Dear Mesdames,

UJ 01/2012 (EOI) - CLEANING SERVICES

The abovementioned tender has reference.

We have sent an email to your department requesting that our new B-BBEE certificate be used for the adjudication of the cleaning service tender - attached herewith email dated 14th September 2012.

As mentioned in other emails (see emails dated 13th and 8th September 2012 attached) we did not receive the RFI email dated 8th September 2012. This was possibly an internet "glitch". We received the email on 13th September 2012 following enquiry. This was the reason that we did not have enough time to prepare our B-BBEE audit for the tender.

We will make ourselves available should you wish to discuss this matter in person or telephonically. Alternatively, kindly confirm that our level 1 B-BBEE certificate will be used for the adjudication process.

We await your response.

Yours faithfully, ELITE CLEANING SERVICES (PTY) LTD.

7. INDEMNITY

- 7.1 Despite any provision of this Agreement to the contrary, the Contractor hereby indemnifies and hold UJ harmless against all claims, liability, damage, loss, penalty, expense and costs (including legal costs on attorney and client scale) of any nature whatsoever which UJ may sustain as a result of or attributable:
- 7.1.1 Any act, default, negligence of the Contractor, its employees, subcontractor or agents in relation to the obligations of the Contractor in terms of this Agreement; or
- 7.2 UJ shall be deemed to have suffered a loss equivalent to the amount of any damages suffered by UJ in respect of the liabilities or claims against it is indemnified in terms of 7.1.
- 7.3 In the event of UJ claiming indemnification rights hereunder, UJ shall notify the Contractor of any claim which may be made against UJ in respect of any of the matters referred to in 7.1 within a reasonable period

of UJ becoming aware thereof, to enable the Contractor to take steps to contest such claim.

- 7.4 The Contractor shall be entitled to contest the claim concerned in the name of UJ, although UJ shall at all times be entitled to control the proceedings in regard thereto, provided that-
- 7.4.1 Where necessary, UJ renders reasonable assistance to the Contractor at the expense of the Contractor in regard to any action instituted by the Contractor pursuant to this sub-clause 7.4;
- 7.4.2 The Contractor delivers to UJ a written indemnity on terms reasonably acceptable to UJ, indemnifying UJ against all charges and all reasonable legal costs (not limited to any scale) which may be incurred or awarded as a consequence of such steps being taken by UJ. UJ will be entitled to require the Contractor to give reasonable security against such costs.
- 7.5 In the event of UJ suffering or paying any loss, damage, liability, cost, charge, expense, payment or penalty to which the warranties and indemnities relate, the Contractor will forthwith upon such proven amount being notified by UJ, pay to UJ an amount equal to such loss, damage, liability, cost, charge, expense, payment or penalty. Any amount payable by the Contractor pursuant to the provisions of this clause shall bear interest at the Prime Rate, which interest shall be payable simultaneously with the amount payable by the Contractor. For purposes hereof "Prime Rate" means the publicly quoted minimum rate of interest from time to time levied by First Rand Bank Limited on unsecured overdrawn current accounts of its most favoured private sector corporate customers, as certified by any manager of that bank (whose authority and/or appointment and/or qualification it shall not necessarily have to prove).
- 7.6 For purposes hereof, UJ shall include its employees, agents, subcontractors, students and/or visitors.

8. MEETINGS

- 8.1 Apart from the normal monthly liaison meetings between the Parties, and the meetings with contract managers which may be held as and when required, UJ and the Contractor shall convene meetings at such time and place as either of them may from time to time reasonably require in order to discuss the administration and implementation of the provisions of this Agreement.
 - 8.2 The chairperson of each such meeting shall be the Authorised UJ Representative, or his nominee, and he shall be entitled to invite such stakeholders as he may deem fit. A quorum shall be 1 (one) representative from both UJ and the Contractor.
 - 8.3 At such meetings, the Contractor shall submit such reports and/or information concerning the performance of its obligations under this Agreement as may be reasonably required of it.
 - 8.4 The Parties agree that, unless otherwise decided, they shall hold such meeting on a once a month basis and the representatives of the Parties

attending such meeting may then agree where and when the next meeting shall be held, which shall constitute valid notice of such next meeting. Whenever it shall be necessary to meet other than as provided for in this clause, UJ shall give the Contractor 24 (twenty four) hours' notice (which may be waived by mutual agreement) of any such meeting, unless "time is of the essence" regarding the Cleaning Services to be rendered at the time.

8.5 Proceedings of such meetings and decisions taken at such meeting shall be recorded in minutes taken by the chairman (or his nominee) and confirmed and/or noted (as the case may be) at the next meeting. Matters so recorded shall be intended to supplement and regulate the practical implementation of this Agreement and shall be binding and enforceable, but should such matters conflict with the material provisions of this Agreement, the provisions of this Agreement shall prevail.

8.6 The Parties shall use their best endeavours to resolve by negotiations any disputes which may arise at such meetings. In the event that such disputed matters cannot be resolved and where this Agreement does not specifically provide for the method of resolution of such dispute at the meeting, then a decision shall be made on a "balance of convenience" principal and such decision shall be binding on the meeting for the time being. The chairman shall, however, immediately refer such matter for resolution as provided for.

8.7 Where the Parties cannot reach agreement on any matter, they shall, as soon as reasonably possible, jointly appoint and share the costs of a suitably qualified independent person (who shall act as expert and not as an arbitrator) to decide such matter, provided that such decision shall not be binding on the Parties. Where agreement cannot be reached on the appointment of such expert, then either Party may demand that the President (or a mutually agreed upon person) appoints such expert within 5 (five) business days of such demand.

- 8.7.1 During such period of dispute or disagreement, the Parties shall carry the costs of equipment that needs to be replaced or repaired in equal shares, until such time that such dispute has been settled. The unsuccessful Party shall refund the successful Party within 10 (ten) days from date of Resolution in terms of this Agreement.
- 8.8 Where the Parties accept the decision of such expert as referred to, such decision shall be minuted at the next meeting and each Party undertakes to comply with such provision.
- 8.9 When either UJ or the Contractor disputes the decision of such expert so appointed as provided for in the preceding sub-clause, then such matter, provided same is material, shall be referred to mediation and arbitration as provided for in "Dispute Resolution".
- 8.10 The representatives of the Parties may confer by telephone, close circuit television or other electronic means or audio or audio visual communication, and a resolution passed at such a conference shall, notwithstanding that the representatives are not present together in one place at the time of the conference, be deemed to have been passed at a meeting of the representatives as envisaged in this clause, duly called

and constituted. All representatives conferring in such a way shall be deemed for the purposes of determining a quorum to be present in person.

9. REPRESENTATIONS, WARRANTIES AND UNDERTAKINGS

- 9.1 The Contractor represents and warrants that:

- 9.1.8 None of the representations and warranties in this clause omits any matter, the omission of which makes any of them misleading.
- 9.2 The Contractor undertakes and hereby accepts the responsibility of ensuring that value for money is received by UJ from it pursuant to this Agreement, that it will not deviate from the detail contained in the Tender

unless otherwise provided for in this Agreement, and further, that it will do everything in its power to render the Cleaning Services to an acceptable and professional level, complying with all the specifications of this Agreement.

9.3 The Contractor acknowledges that it makes the representations, warranties and undertakings in the above sub-clauses with the intention of inducing UJ to enter into this Agreement and that UJ enters into this Agreement in full reliance on each of them.

- 11.1 The Contractor shall, with the prior written consent of UJ, which consent shall not be unreasonably withheld, but which may be granted conditionally, be entitled to appoint sub-contractors as and when the Contractor deems it necessary for the performance or part-performance of any of its obligations in terms of this Agreement, provided that -
- 11.1.1 The Contractor shall not, by virtue of any such appointment, be entitled to claim from UJ any amount not specifically provided for in this Agreement;
- 11.1.2 No such appointment shall in any way whatsoever absolve the Contractor from any of its obligations in terms of this Agreement;
- 11.1.3 Any such appointment shall require that such sub-contractor carry out the obligations of the Contractor in this Agreement with the same due care and diligence for the interest of UJ as is required of the Contractor.

11.2 Notwithstanding the provisions of the preceding sub-clauses, UJ may at any time, upon reasonable grounds and upon notice to the Contractor, withdraw any consent given for the appointment of any sub-contractor for the remaining currency of this Agreement.

12. CHANGED CIRCUMSTANCES

- 12.1 Notwithstanding anything contained in this Agreement to the contrary, if any change in or introduction of any law and/or policy and/or guideline and/or due to growth or increase or decrease usage of any specific area or any other similar event as a result of which UJ is obliged to comply and/or which is in accordance with the practise of a responsible supplier of tertiary education, or any interpretation or administration thereof, results that UJ may find it necessary, in its sole and absolute discretion, to increase, reduce and/or terminate the Cleaning Services, UJ reserves the right to make amendments to the Cleaning Services required, and such amendments to this Agreement and the required Cleaning Services will be renegotiated in a fair and transparent manner.
- 12.2 Pursuant to the above, the then existing profit of the Contractor, the then existing expense of UJ and the then prevailing market price of services similar to the then required cleaning services, will be taken into account in order to negotiate intended amended requirements and expenses of UJ in respect of the Cleaning Services.
- 12.3 For the avoidance of any doubt, it is specifically recorded that:
- 12.3.1 UJ shall not be compelled to utilise all members of the Cleaning Team as at the Effective Date or for the full duration of this Agreement
- 12.3.2 UJ's requirements for the various clusters regarding the cleaning may change during the course of this Agreement, in which event such changed requirements will be addressed by the Parties, even if it means that some members of the Cleaning Team may be retrenched.

- 14.3 No addition to, variation or consensual cancellation of this Agreement and no extension of time, waiver or relaxation or suspension of any of the provisions or terms of this Agreement shall be of any force or effect unless in writing and signed by or on behalf of all the Parties.
- 14.4 No latitude, extension of time or other indulgence which may be given or allowed by UJ to the Contractor in respect of the performance of any obligation hereunder or enforcement of any right arising from this Agreement and no single or partial exercise of any right by UJ shall under any circumstances be construed to be an implied consent by UJ or operate as a waiver or a novation of, or otherwise affect any of UJ's rights in terms of or arising from this Agreement or stop UJ from enforcing, at any time and without notice, strict and punctual compliance with each and every provision or term hereof.
- 14.5 The Parties undertake at all times to do all such things, to perform all such acts and to take all such steps and to procure the doing of all such things, the performance of all such actions and the taking of all such steps as may be open to them and necessary for or incidental to the putting into effect or maintenance of the terms, conditions and import of this Agreement.14Save as is specifically provided in this Agreement, the Contractor shall not be entitled to cede or delegate its rights and/or obligations in terms of this Agreement to any party without the prior written consent of UJ.

Appendix "C"

SPECIAL NOTES

- 1) It often becomes an issue between the separate contractors on site as to who is responsible for a certain area. In this regard, refer to areas where outside labs are for instance connected to the main building by a walkway or parking areas are connected to the building with paving blocks. In such cases, the U.J. specifically prefers to have an "overlapping" scenario as opposed to an argument between separate contractors as to who accepts responsibility for the area in question. Provision must therefore be made to accommodate this shortcoming. In any event, U.J's decision in the case of such a dispute between two contractors will be final.
- 2) Specific provision must be made for all cleaners (including supervisory staff) to work a full 46-hour week. Mondays to Fridays, cleaners have to work a 9 hour day with a one hour lunch break and Saturdays 7 hours with a similar break. On Sundays the service has to be rendered with a reduced staff compliment from 08h00 until 17h00. Note must be taken that it is not only a service that the Contractor will be selling but actual labour as well. The attendance register of the contractor must be kept on site and be available for audit purposes at all times. All short time found will be claimed by U.J. on a basis acceptable to our management. Absentees will be replaced on the day following the absenteeism or deductions on invoiced amounts.
- 3) Provision must be made to have permanent full time staff servicing the various ablution facilities on an on-going rotational basis. At present most facilities are serviced up to 12 times daily, to ensure that bathrooms are neat, tidy and hygienic at all times. Note must be taken that a day shift staff compliment is used, together with a middle shift, as well as a night shift. The U.J. will insist that this practice be continued. Where the general specifications state that

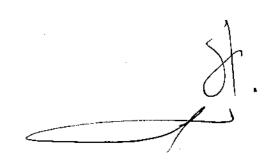

toilets and cloakrooms are serviced daily, it is not implied that only one service per facility per day has to be rendered.

- 4) Very explicit minimum requirements, guidelines and instructions in relation to staff compliments, machinery required to service the individual contracts and other general requirements i.e. hours to be worked, overlaps, service periods etc. will be issued. Contractors are to ensure that they comply herewith at all times.
- Certain checks and balances are built into the administration of these contracts.
 It will be required that the successful tenderer must complete certain documentation on request and submit as and when required.
- 6) A standard cleaning contract costing form is attached to the tender documentation for completion. (Schedules "C") will be used as the only "tender to contract" price document and must be completed in full. Failure to comply will lead to automatic disqualification. No "additional" annexures or schedules, escalating a "reduced" price with the intent to mislead, will be accommodated. The price quoted on Schedules C must be your full and final price for which you will render the full standard services as defined in the scope of this contract.
- 7) A full-time contract manager must be appointed to each of these contracts, to liaise with the U.J. management. This contract manager must also attend the weekly cleaning meetings held on Wednesdays or such other day as UJ may advise.
- Twice monthly, a senior member of the Contractor also has to attend these meetings.
- 9) Note must be taken of the fact that all glass (windows, entrance doors- and facades, partitioning glass etc.) have to be washed twice per annum. This is done by bringing in a special dedicated team of cleaners, for a two (2) month period at a time, twice per year. (June/July and mid-November/ part December, up to mid-January.) Both inside and outside faces of each piece of glass on all the campuses and at the outside sport areas and school, have to be washed during these periods.
- 10) Provision must be made in the costing structures to allow for two (2) major "spring cleaning" exercises annually. (June/July and November/December)

During these "spring cleaning" periods, all hard floor surfaces must be stripped down and re sealed with at least three (3) coats of high solid-content polymer sealant. During the rest of the year, provision must be made for on-going maintenance of floor surfaces. Should floor surfaces not appear acceptable during these periods, the U.J. may, at their discretion, instruct the Contractor to strip and re seal specific floors or sections thereof at no additional cost or expense to UJ. Carpeted floors, are included in this exercise and provision must be made for the twice annual wet extraction cleaning of all carpeted areas. Cleaning of accessible windows must also be provided for, for a bi-annual wash.

- 11) Specific note must be taken of the quarry tiles on outside verandas and walkways. These are areas that would normally not be sealed. The U.J. expects these areas to be thoroughly cleaned, to be totally dust free and then to be rinsed with water containing a polymer sealant, to give it a rich, maintained appearance.
- 12) The Contractor is to make provision for new machinery on all U.J. contracts. The Contractor will be expected to have the minimum disruption of services, caused by breakdowns and therefore second-hand cleaning equipment is unacceptable.
- 13) With the start-up of this contract, all equipment and machinery must be new. Thereafter, machinery must be maintained in a fully working condition, maintaining the numbers as specified in schedule B.
- 14) The U.J. reserves the right to approve the appointment of supervisory staff deployed at the U.J and to consider the suitability of these staff members on an on-going basis.
- 15) Special requests are received from U.J. staff. It is required that all requests be attended to on the same day they are received. Should this be impossible for whatever reason, feedback to the relevant parties will be expected.

No additional ad-hoc work may be undertaken without an official purchase order being issued by UJ Procurement.

Relating to the Kingsway Campus, the following 'building specifics' will apply. Please note that some or all of these may be relevant to other 'clusters' or areas:

The Contractor must make provision for the following areas which are considered to be 'grey areas':

- Paved areas around the entrances to the building. Areas to be swept, washed and polished on a frequent basis, to appear neat, tidy and well cared for at all times. This area is referred to as the "veranda"
- Weeds growing between paving blocks near entrances and on rooftops must be removed when necessary
- Green algae growth on paving at some of the entrance doors must be treated as required.
- All entrance doors and window facades at all entrances to the building have to be washed and maintained frequently, to appear acceptable on a daily basis.
- Areas where special events take place are to receive intensive attention whenever required. This could entail that a special team of staff or additional chemicals or more intense supervision would be required whenever the need presents itself. In this regard, examples include but are not limited to the foyer area to be polished prior to graduation ceremonies, or that all areas receive specialized attention when the U.J. management team receive the first year students and their parents.

Additional requirements

- All vinyl floors throughout the buildings are required to be free of scuffmarks.
- Some floors will require more frequent treatment than others but in general all vinyl floors must be burnished on a continuous basis.

- Stripping and sealing of floors must take place twice a year, but provision must be made to strip and reseal floors additionally, should it be required.
- A lot of duplication of work will take place when night-shift cleaning staff take over from day-shift cleaning staff. It is however important that the ground floor passage, all lifts, all toilet areas on all floors and all lecture halls are fully serviced, clean and ready for use, prior to the night shift staff departing from duty.
- In the event of power failures during night times or absence of light in lecture halls, the night supervisor is to liaise with the senior Protection Services staff member on duty, for remedial actions by the U.J.
- Obvious breakages, defects, acts of vandalism or other damages noticed by the Contractor's employees must be reported to the Protection Services offices on a daily basis by the Contractor's supervisory staff.
- No pamphlets, notices or any other defacing materials or documentation are allowed to be displayed on any wall inside the main building, inside lifts or on glass entrance doors. All such materials must be removed on a daily basis before 08:00.
- In the event of water leaks in the main building, sufficient staff must be allocated to this contract to allow the Contractor to be in a position to attend to emergency eventualities without disrupting other general services.
- A full-time contract manager and the specified full time supervisory staff must be allocated to this contract.
 - It is required that cleaners and supervisory staff work a 46-hour week, rendering a service from Mondays to Saturdays. Hours of work on weekdays must cover the period from 06:45 to 15:45 with a one (1) hour break (lunch 12:00 – 13:00) and staff must be at their workstations by 07:00 every morning. The afternoon shift works from 13:00 to 22:00. Night-shift staff must perform their duties from 20:00 until 05:00.
 - On Saturdays, day staff is to work from 07:00 until 16:00 (staggered shifts). The afternoon and night staff work from 12:00 until 19:00, with both shifts having a one-hour lunch break. No sleeping on the premises is allowed at any time.

- On Sundays, a reduced staff compliment has to perform duties from 08h00 until 17h00, to prepare the building for the following Monday.
- Lecture halls Furnishings and fittings are to be cleaned and serviced as stipulated in the standard specifications. In addition, all display boards (black boards) must be washed with clean water. Chalk, that will be supplied to the contractor, must be placed in all lectures rooms and board erasers dusted out.
- Should certain lecture halls be prepared for service for a following day i.e. notes written on black boards etc., notice will be given to the contractor, not to clean the specific area if so required. Normally, servicing of lecture halls commences at 22:00.
- The contractor is to keep a communication register for written instructions, notices and general communication with their night shift staff.

The Contractor shall be liable for any losses which occur during the cleaning process when it can be established on a balance of probabilities that the Contractor was responsible for such loss.

KINDLY TAKE NOTE:

That the exact minimum staff compliments, machinery required, hours of work etc.

have all been specified and must be reflected in your costing forms.

NON-COMPLIANCE WILL LEAD TO DISQUALIFICATION .

Staff compliments and machinery are listed on schedules A and B inclusive of the hours of work.

ADDITIONAL INFORMATION

The academic premises of the University of Johannesburg are under severe pressure with the over-crowding of facilities and this places additional stress on all service providers.

To enable Contractors to better understand ablution maintenance specifically, an example (schedules E) has been drawn up to indicate how the facilities must be maintained in our main campus building (APK Ring Building). Similar programs or working procedures also apply across campuses and/or in other specific areas.

Please note that Schedules "C" must comply with all specifications in the standard document. Any deviation must be completed by attaching an annexure or addendum. Should alternative options be submitted (not required) such suggestions should be contained in an annexure or addendum but the costing sheet must be considered as your ONLY tender to contract price for the specifications as contained herein.

The final price as submitted at the bottom of the costing sheet will be your all inclusive price for the full scope of work as contained in this tender and provide for everything as specified.

SCHEDULE "E"

Example of Toilet Cleaning Program, as expected in terms of the UJ facilities – specific example applicable to contract 001

Every morning, starting at 06:45

- 1. Start at the walkway on the ground level. Confirm that the night shift staff did indeed fully service the ablution facilities. Ensure that there is sufficient paper towels, toilet paper and pink hand soap in all the relevant holders and that all are in good working order. Open the windows, pick up the paper lying around the paper towel holders and empty the hand paper bin. Flush all toilets and urinals that were possibly not flushed after use and make sure that there are sufficient deo-blocks placed in the urinals.
- 2. Now move through to the 2nd, 3rd, 4th, 5th, 6th and 7th levels and do the same as in the ground level toilet facilities.
- 4. Around 07:45 there is now a shift to the action of the closing of toilets for service purposes. Due to the high frequency of use on the lower floor levels, it is recommended that this should commence on the 7th floor level.
- 5. After each floor level has been properly cleaned, a quick check-up must be done on all the other remaining floor levels.
- 6. From 07:46 until lunchtime, the walkway on the ground level as well as 3 (three) other floor levels must be serviced on this same basis. From lunchtime until 15:45 the remaining 3 (three) floor levels as well as the walkway on the ground floor shall be serviced similarly.
- 7. This required method of work shall ensure that all toilets on 8 (eight) floor levels are serviced (4 of them before lunch and 4 thereafter). It shall also have the result that the toilets on the ground level walkway, which have the highest use, are thoroughly cleaned twice a day and that each toilet facility shall be checked at least 10 (ten) times daily. (Once first in the morning, once last in the afternoon, and once after each of the 8 levels has been serviced)
- 8. Each day at 15:00 this task must have been fully executed in order to proceed to attend to the final (10th) check-up of all floor levels.

9. From 15:00 until 15:45 the final check-up inspection takes place and the same requirements as listed in 1 and 2 herein, are to be performed. (Only 6.5 minutes per floor level is available for this).

At 15:45 the cleaning personnel withdraw from the floor levels where they work and are dismissed from service for the day. At this point in time, the afternoon shift is already on duty and the floor levels are to be serviced in accordance with the said manner.

- 10. The afternoon shifts are to perform their duties from 13:00 until 22:00 with an eating break from 17:00 to 18:00. During this time period the same services are to be rendered

Appendix "C"

SPECIAL NOTES

- 1) It often becomes an issue between the separate contractors on site as to who is responsible for a certain area. In this regard, refer to areas where outside labs are for instance connected to the main building by a walkway or parking areas are connected to the building with paving blocks. In such cases, the U.J. specifically prefers to have an "overlapping" scenario as opposed to an argument between separate contractors as to who accepts responsibility for the area in question. Provision must therefore be made to accommodate this shortcoming. In any event, U.J's decision in the case of such a dispute between two contractors will be final.
- 2) Specific provision must be made for all cleaners (including supervisory staff) to work a full 46-hour week. Mondays to Fridays, cleaners have to work a 9 hour day with a one hour lunch break and Saturdays 7 hours with a similar break. On Sundays the service has to be rendered with a reduced staff compliment from 08h00 until 17h00. Note must be taken that it is not only a service that the Contractor will be selling but actual labour as well. The attendance register of the contractor must be kept on site and be available for audit purposes at all times. All short time found will be claimed by U.J. on a basis acceptable to our management. Absentees will be replaced on the day following the absenteeism or deductions on invoiced amounts.
- 3) Provision must be made to have permanent full time staff servicing the various ablution facilities on an on-going rotational basis. At present most facilities are serviced up to 12 times daily, to ensure that bathrooms are neat, tidy and hygienic at all times. Note must be taken that a day shift staff compliment is used, together with a middle shift, as well as a night shift. The U.J. will insist that this practice be continued. Where the general specifications state that toilets and cloakrooms are serviced daily, it is not implied that only one service per facility per day has to be rendered.
- Very explicit minimum requirements, guidelines and instructions in relation to staff compliments, machinery required to service the individual contracts and other general requirements i.e. hours to be worked, overlaps, service periods etc., have been issued. Contractors are to ensure that they comply herewith at all times.

- Certain checks and balances are built into the administration of these contracts.
 It will be required that the service providers must complete certain documentation on request and submit as and when required.
- 6) A standard cleaning contract costing form is attached to the tender documentation for completion. (Schedules "C") will be used as the only "tender to contract" price document and must be completed in full. Failure to submit this required documentation, could lead to automatic disqualification of a prospective service supplier. No "additional" annexures or schedules, escalating a "reduced" price with the intent to mislead, will be accommodated. The price quoted on Schedules C must be your full and final price for which you will render the full standard services as defined in the scope of this contract.
- 7) A full-time contract manager must be appointed to each of these contracts, to liaise with the U.J. management. This contract manager must also attend the weekly cleaning meetings held on Wednesdays or such other day as UJ may advise.
- Twice monthly, a senior member of the Contractor also has to attend these meetings.
- 9) Note must be taken of the fact that all glass (windows, entrance doors- and facades, partitioning glass_etc.) has to be washed twice per annum. This is done by bringing in a special dedicated team of cleaners, for a two (2) month period at a time, twice per year. (June/July and mid-November/ part December, up to mid-January.) Both inside and outside faces of each piece of glass on all the campuses and at the outside sport areas and school, have to be washed during these periods.
- 10) Provision must be made, to allow for two (2) major "spring cleaning" exercises annually. (June/July and November/December) During these "spring cleaning" periods, all hard floor surfaces must be stripped down and re sealed with at least three (3) coats of high solid-content polymer sealant. During the rest of the year, provision must be made for on-going maintenance of floor surfaces. Should floor surfaces not appear acceptable during these periods, the U.J. may, at their discretion, instruct the Contractor to strip and re seal specific floors or sections thereof at no additional cost or expense to UJ. Carpeted floors, are included in this exercise and provision must be made for the twice annual wet

extraction cleaning of all carpeted areas. Cleaning of accessible windows must also be provided for, for a bi-annual wash.

- 11) Specific note must be taken of the quarry tiles on outside verandas and walkways. These are areas that would normally not be sealed. The U.J. expects these areas to be thoroughly cleaned, to be totally dust free and then to be rinsed with water containing a polymer sealant, to give it a rich, maintained appearance.
- 12) The Contractor is to make provision for new machinery on all U.J. contracts. The Contractor will be expected to have the minimum disruption of services, caused by breakdowns and therefore second-hand cleaning equipment is unacceptable.
- 13) With the start-up of this contract, all equipment and machinery must be new. Thereafter, machinery must be maintained in a fully working condition, maintaining the numbers as specified in schedule B.
- 14) The U.J. reserves the right to approve the appointment of supervisory staff deployed at the U.J and to consider the suitability of these staff members on an on-going basis.
- 15) Special requests are received from U.J. staff. It is required that all requests be attended to on the same day they are received. Should this be impossible for whatever reason, feedback to the relevant parties will be expected.

No additional ad-hoc work may be undertaken without an official purchase order being issued by UJ Procurement.

Relating to the Kingsway Campus, the following 'building specifics' will apply.

Please note that some or all of these may be relevant to other 'clusters' or

areas:

The Contractor must make provision for the following areas which are considered to be 'grey areas':

 Paved areas around the entrances to the building. Areas to be swept, washed and polished on a frequent basis, to appear neat, tidy and well cared for at all times. This area is referred to as the "veranda"

- Weeds growing between paving blocks near entrances and on rooftops must be removed when necessary
- Green algae growth on paving at some of the entrance doors must be treated as required.
- All entrance doors and window facades at all entrances to the building have to be washed and maintained frequently, to appear acceptable on a daily basis.
- Windows and glass in the foyer area to be washed whenever a graduation or other major function takes place.
- Areas where special events take place are to receive intensive attention whenever required. This could entail that a special team of staff or additional chemicals or more intense supervision would be required whenever the need presents itself. In this regard, examples include but are not limited to the foyer area to be polished prior to graduation ceremonies, or that all areas receive specialized attention when the U.J. management team receive the first year students and their parents.

Additional requirements

- All vinyl floors throughout the buildings are required to be free of scuffmarks.
- Some floors will require more frequent treatment than others but in general all vinyl floors must be burnished on a continuous basis.
- Stripping and sealing of floors must take place twice a year, but provision must be made to strip and reseal floors additionally, should it be required.
- A lot of duplication of work will take place when night-shift cleaning staff take over from day-shift cleaning staff. It is however important that the ground floor passage, all lifts, all toilet areas on all floors and all lecture halls are fully serviced, clean and ready for use, prior to the night shift staff departing from duty.
- In the event of power failures during night times or absence of light in lecture halls, the night supervisor is to liaise with the senior Protection Services staff member on duty, for remedial actions by the U.J.

- Obvious breakages, defects, acts of vandalism or other damages noticed by the Contractor's employees must be reported to the Protection Services offices on a daily basis by the Contractor's supervisory staff.
- No pamphlets, notices or any other defacing materials or documentation are allowed to be displayed on any wall inside the main building, inside lifts or on glass entrance doors. All such materials must be removed on a daily basis before 08:00.
- In the event of water leaks in the main building, sufficient staff must be allocated to this contract to allow the Contractor to be in a position to attend to emergency eventualities without disrupting other general services.
- A full-time contract manager and the specified full time supervisory staff must be allocated to this contract.
- It is required that cleaners and supervisory staff work a 46-hour week, rendering a service from Mondays to Saturdays. Hours of work on weekdays must cover the period from 06:45 to 15:45 with a one (1) hour break (lunch 12:00 – 13:00) and staff must be at their workstations by 07:00 every morning. The afternoon shift works from 13:00 to 22:00. Night-shift staff must perform their duties from 20:00 until 05:00.
- On Saturdays, day staff is to work from 07:00 until 16:00 (staggered shifts). The afternoon and night staff work from 12:00 until 19:00, with both shifts having a one-hour lunch break. No sleeping on the premises is allowed at any time.
- On Sundays, a reduced staff compliment has to perform duties from 08h00 until 17h00, to prepare the building for the following Monday.
- Lecture halls Furnishings and fittings are to be cleaned and serviced as stipulated in the standard specifications. In addition, all display boards (black boards) must be washed with clean water. Chalk, that will be supplied to the contractor, must be placed in all lectures rooms and board erasers dusted out.
- Should certain lecture halls be prepared for service for a following day i.e. notes written on black boards etc., notice will be given to the contractor, not to clean the specific area if so required. Normally, servicing of lecture halls commences at 22:00.

 The contractor is to keep a communication register for written instructions, notices and general communication with their night shift staff.

The Contractor shall be liable for any losses which occur during the cleaning process when it can be established on a balance of probabilities that the Contractor was responsible for such loss.

KINDLY TAKE NOTE:

That the exact minimum staff compliments, machinery required, hours of work etc. have all been specified and must be reflected in your costing forms.

NON-COMPLIANCE WILL LEAD TO DISQUALIFICATION.

Staff compliments and machinery are listed on schedules A and B inclusive of the hours of work.

ADDITIONAL INFORMATION

The academic premises of the University of Johannesburg are under severe pressure with the over-crowding of facilities and this places additional stress on all service providers.

To enable Contractors to better understand ablution maintenance specifically, an example (schedules E) has been drawn up to indicate how the facilities must be

maintained in our main campus building (APK Ring Building). Similar programs or working procedures also apply across campuses and/or in other specific areas.

Please note that Schedule "C" must be aligned with all specifications in the standard document. Any deviation from the supplied specifications, must be completed by attaching an annexure or addendum. Should alternative options be submitted (not required) such suggestions should be contained in an annexure or addendum- but the costing sheet must be considered as your ONLY tender to contract price for the specifications as contained herein. (Note:- This was only put in, so-that suppliers would not come with weird and wonderful untested proposals of how to do things differently- and thereby cut costs to get the contract, only to then find out that they cannot deliver.)

The final price as submitted at the bottom of the costing sheet will be your all inclusive price for the full scope of work as contained in this tender and provide for everything as specified.

SCHEDULE "E"

Example of Toilet Cleaning Program, as expected in terms of the UJ facilities – specific example applicable to contract 001

Every morning, starting at 06:45

- 1. Start at the walkway on the ground level. Confirm that the night shift staff did indeed fully service the ablution facilities. Ensure that there is sufficient paper towels, toilet paper and pink hand soap in all the relevant holders and that all are in good working order. Open the windows, pick up the paper lying around the paper towel holders and empty the hand paper bin. Flush all toilets and urinals that were possibly not flushed after use and make sure that there are sufficient deo-blocks placed in the urinals.
- 2. Now move through to the 2nd, 3rd, 4th, 5th, 6th and 7th levels and do the same as in the ground level toilet facilities.
- The services as listed under 1 and 2 above must be performed over a period of <u>1 (one) hour, which means that approximately 8,5 minutes must be spent per</u> floor level.
- 4. Around 07:45 there is now a shift to the action of the closing of toilets for service purposes. Due to the high frequency of use on the lower floor levels, it is recommended that this should commence on the 7th floor level.
- 5. After each floor level has been properly cleaned, a quick check-up must be done on all the other remaining floor levels.
- 6. From 07:46 until lunchtime, the walkway on the ground level as well as 3 (three) other floor levels must be serviced on this same basis. From lunchtime until 15:45 the remaining 3 (three) floor levels as well as the walkway on the ground floor shall be serviced similarly.
- 7. This required method of work shall ensure that all toilets on 8 (eight) floor levels are serviced (4 of them before lunch and 4 thereafter). It shall also have the result that the toilets on the ground level walkway, which have the highest use, are thoroughly cleaned twice a day and that each toilet facility shall be checked at least 10 (ten) times daily. (Once first in the morning, once last in the afternoon, and once after each of the 8 levels has been serviced)
- 8. Each day at 15:00 this task must have been fully executed in order to proceed to attend to the final (10th) check-up of all floor levels.

9. From 15:00 until 15:45 the final check-up inspection takes place and the same requirements as listed in 1 and 2 herein, are to be performed. (Only 6.5 minutes per floor level is available for this).

At 15:45 the cleaning personnel withdraw from the floor levels where they work and are dismissed from service for the day. At this point in time, the afternoon shift is already on duty and the floor levels are to be serviced in accordance with the said manner.

- 10. The afternoon shifts are to perform their duties from 13:00 until 22:00 with an eating break from 17:00 to 18:00. During this time period the same services are to be rendered
- 11. The nightshift personnel report for daily duty at 21:00. They will thoroughly clean the toilet facilities for use during the following working day.

KINDLY TAKE NOTE:

That the exact minimum staff compliments, machinery required, hours of work, etc.

have all been specified and must be reflected in your costing form. NON

COMPLIANCE WILL LEAD TO DISQUALIFICATION.

Staff compliments and machinery are listed on page 49 and 50, inclusive of the hours of work.

ADDITIONAL INFORMATION

The academic premises of the University of Johannesburg are under severe pressure, with the over-crowding of facilities, and this places additional stress on all service providers.

In order for potential service providers to understand better around specifically ablution-maintenance, an example has been drawn-up of how-the-facilities-need to be maintained in our main campus building (APK Ring Building). Similar programs or working procedures could also apply across campuses and/or in other specific areas.

Please note that Schedule "C" page 51 AND 52 must comply with all specifications in the standard document. Any deviations must be completed by attaching an addendum/annexure. Should alternative options be submitted (not required) such suggestions should be contained in an annexure or addendum but the costing sheet (page 51 AND 52) must be considered as your **ONLY** tender to contract price for the specifications as contained herein. The final price as submitted at the bottom of the costing sheet will be your all inclusive price for the full scope of work as contained in this tender and provide for everything as specified.

- 1.2 The Parties agree as set out below.

2. DEFINITIONS AND INTERPRETATION

2.1.1 "Cleaning Services" refers to the cleaning services to be rendered by the Contractor in and on the Kingsway Campus Building and Madibeng Building as envisaged and recorded in this Agreement, and without derogating from the generality thereof, shall include the supply of all necessary cleaning equipment, labour, machinery and materials necessary for the proper execution thereof, as well as the Ad hoc Services authorised in writing by the Authorised Representative;

3. INTRODUCTION

3.1 UJ wishes to appoint a contractor to have the windows at Kingsway Campus and Madibeng Building in a clean and acceptable condition for all UJ staff members, students, clients and all visitors at all times, and has invited *inter alia* the Contractor to tender in terms its tender procedures;

Schedule A

Window cleaning

Window cleaning service to be supplied twice a year.

Auckland Park

In & out of all accessible exterior windows, and interior windows over 2m. 510 man days @ normal rates, 30 man days @ Saturday rate

Doornfontein, Soweto and Bunting Road.

In & out of all accessible residences windows, out of all other accessible exterior windows, in of exterior windows over 2m, in and out of interior windows over 2m. 490 man days @ normal rate, 15 man days @ Saturday rate

Notes for tenderer;

- Contractor must be fully compliant with the OHS Act (as amended), particularly the Construction Regs, and all relevant SABS standards. A complete Health and Safety file to be submitted with the tender. A safety method statement/work procedure to be included in the file.
- 2. Contractor must be a member in good standing with the IWH.
- 3. Some windows are not accessible via suspended access equipment (including rope access), nor with ladders, scaffolding or MEWPs, contractor to submit proposal (with proof of viability) on how such windows will be cleaned.
- Costs for maintaining the existing BMU/TSP system and costs of platform hire, training and certification are for the contractors account. These costs currently are R34 900.00 pa and are expected to increase by approx. 10% from January 2013. All testing to be done by an independent certified company.
- 5. UJ will cover costs of servicing, testing and maintaining the existing Hillaldam rails and safety lines.
- 6. Public liability cover, 2m.
- 7. No modifications, alterations or installations to any UJ buildings will be allowed.
- 8. The window cleaning at the residences needs to be done twice a year but it will have to occur during the June/July and Nov/Dec recess periods, as windows need to be cleaned from inside bedrooms as well. An additional 230 man days are required to wash both faces of all glass and for the purpose of this tender we are not specifying that specialised access equipment need to be hired in. Once one or two cycles of window washing have been completed, the difficulties experienced around access and equipment will be

re-assessed and the successful service provider will then be afforded the opportunity to submit a quotation for consideration.

- 1 31 OCT MIL 9. As the above process describes a learning curve for all parties, best practice, cost structures and operating procedures will be negotiated on a fair basis and the final outcome and decisions then reduced to writing.
- 10. In the interim, service providers need to provide for the labour component in the costing structure (kindly indicate the two components of this tender individually - and then as a combined total price).
- 11. 510 MAN DAYS - MONDAY TO FRIDAY 30 MAN DAYS - SATURDAY

- 4.—Costs for-maintaining the existing BMU/TSP system and costs of platform hire, training and certification are for the contractors account. Once one or two cycles of window washing have been completed, the difficulties experienced around access and equipment will be

re-assessed and the successful service provider will then be afforded the opportunity to submit a quotation for consideration.

- 10. In the interim service providers need to provide for the labour component in the costing structure (kindly indicate the two components of this tender individually – and then as a combined total price).
