

# A. PREPARATION

-Preparation for the interview was the most challenging part of this project  
-In my preparation I considered the following imperative for the success of the interview:

1. The language to be used during the interview
2. Venue of the interview
3. Phrasing of questions

## 1. Language to be used

-I thought it best that I use English in this particular interview  
-This is because in English, the interview will be much easier since there will be no need to translate my materials from English to siSwati.

## 2. Venue of the interview

-I saw it best that the interview be conducted at the pastor's residence.  
-This is due to that I wanted him to be as relaxed as possible thus his co-operation will be at its peak.

## 3. PHRASING OF QUESTIONS

-This part of my preparation is about the most challenging by far
