

WHY I CHOOSE THE INDIVIDUALS.

It goes without saying that almost all of my interviews are involved in the center and play various roles in the center. The reason why I choose the individuals is because they had the information that I needed, they didn't ask money before I could interview them and they were from our community.

Because we were asked to investigate the life of a member who has made a difference in our community through interviewing his or her community members. All of my interviewees know about Mrs. Mokoena and the Bopanang Stimulation Center. Four of them are from Bopanang, two are the student of Bopanang, the other two is from Bopanang staff. Others are involved somehow but the fact is that they know about Bopanang. So my interviewees had the best knowledge that I needed.

They have done a good job.
