

Don't risk an illegal connection.  
Don't deal with iz'nyoka.

Deal with iz'nyoka and you will get your fingers stuck. That is, many innocent people are killed and injured because of the illegal electricity connections made by these criminals. And much money is wasted because of the strain placed on the power supply. If you think that the electricity bill of iz'nyoka connected to your home is free, think of this: if you don't pay for the electricity you use, you're effectively subsidizing paying more on their bills. And if you get caught, you will be arrested and you could be fined or even go to jail. So don't allow these criminals to put your hands to me. Report iz'nyoka now.
